## Part B:

### 1. Activities reflecting the goals and objectives of the institution

The vision of the college is “**Social change through economic progress and economic progress through educating the youth of the rural area**”. The mission of the college is “**to provide quality higher education aimed at enhancing the required knowledge and skills and instilling the desired values in the minds of**

---

**students enabling them to be enterprising and becoming worthy citizens of the country”.**

The College arranges the bridge course and remedial classes for the weak students who have come from the schools in the backward and rural areas. English coaching classes are conducted to the weak students by the English teachers. Remedial courses are conducted for the weaker sections of the students both with the help of UGC and management funds. The Management gives scholarships to the meritorious students who are very poor. The Alumni Association of the College also helps the poor students by providing financial assistance in the form of loans.

All the PG students are given computer training under the UGC – Post Graduate Computer Education Programme. Flexible syllabi are framed. For example, P.G. students of English are offered computer courses to sustain global competence. P.G. students of Economics are offered computer courses incorporating computer software packages such as SPSS, which helps to apply statistical tools in their research work. The course content for M.A. English, M.A. Economics and M.Sc. Chemistry differ on the basis of their entry level competencies. At the completion of course they are given a transcript in which the courses they underwent are mentioned.

In B.Com. a subject titled ‘Career Planning’ is in the curriculum. This paper helps the students to plan their career and also gives training to the students to face the aptitude tests conducted by various organizations to recruit employees for their concerns. IT related subjects are incorporated in M.Sc. Mathematics. Compulsory subject on “Computer Application” is included for P.G. Economics students.

Career Guidance and Counselling Cell is functioning in our college. Dr.C.Ramesh, Associate Professor of Economics is the Director. The cell arranges several company interview programme and helps the student to get job.

---

Experts from reputed institutions are invited to participate in the seminar/workshop held in various Departments. Guest lectures are arranged.

A language laboratory is functioning with all facilities and short term courses are conducted by the Department of English

Department of Tamil organizes conferences, collect materials and publish through “Tamil Aaivu Mantram” every year. The college management gives fund liberally for these activities.

There is a better co-ordination among the entire Sister institutions and the resources are utilized. Primarily, the library, spectrophotometer and the crystal growth centre are very much used.

The management has been taking steps to establish a University comprising of all its institutions – College of Engineering, College of Education, College of Physical Education, Women’s College of Arts and Science along with the college in Tiruchendur, that are run by Aditanar Educational Institution. The emergence of new University will help us to achieve the goals.

## **2. New academic programmes initiated (UG and PG)**

B.Com. (CA) course is offered from the year 2009- 2010. All courses will become co-educational from 2009 -2010.

## **3. Innovation in curricular design and transaction**

The CBCS system was followed on the basis of direction of the Government of Tamilnadu) (GOT). The system aims at uniform curriculum for the state for UG and PG courses. The system is expected to facilitate mobility of learners from college to college and mobility between distance and regular modes of education.

---

Due to the Choice Based Credit System, the students are evaluated on the basis of internal assessment and external examination. The internal assessment consists of internal test (20 marks) and assignment (5 marks). The external examination is conducted by the University (75 marks). The marks are converted into Credits. Credits are awarded for individual subjects and a student is expected to score a minimum Grade Point Average (GPA) for a pass and the number of Credits is decided on the basis of hours allotted to a Course / Project offered.

For the quality enhancement of the students, curriculum is designed in such way that the basic knowledge has been provided in the first year and advanced subjects are taught in the subsequent years. This facilitates the students to assimilate knowledge and skill simultaneously.

### ***Objectives of CBCS System***

Choice Based Credit System was introduced with the following objects.

- To enable the students to move from one college to another and continue their education.
- To facilitate mobility of learners through distance mode to regular institutions and vice versa.
- To expose the students to practical problems through projects
- To pursue higher education by the students in the subject of their own interest.

### ***Features of CBCS System***

This system has the following features

- Students are given option to choose allied subjects related to the core subjects and also non-major elective subjects.

- 
- Skill based subjects are introduced.
  - Tamil or any other language and English subjects are compulsory.
  - Evaluation is made on the basis of internal assessment and external examinations.
  - Internal marks – 25 (20 marks for test and 5 marks for assignment)
  - External examination for 75 marks is conducted by the University.
  - The marks are converted into Credits. Credits are awarded for individual subjects and a student is expected to score a minimum Grade Point Average (GPA) for a pass and the number of credits are decided on the basis of hours allotted to a Course / Project offered.
  - During (2009-2010) the first batch of P.G. Students completed their course under the CBCS.

### ***Teaching – Learning and Evaluation***

#### ***Admission Process and Student Profile***

Admissions are made as per the guidelines of the Government of TamilNadu. The college adopts Open Counselling System for admitting new entrants. Through counselling system, total transparency is ensured. During this academic year, 214 women candidates are enrolled in PG and M.Phil. Courses.

#### ***Teaching - Learning Process***

Faculty members keep pace with recent developments by participating in Seminars, Symposia, Conference, attending Orientation / Refresher Courses and Organizing Seminars / Workshops and arranging Guest lectures.

### **4. Inter-disciplinary programmes started**

The option is given to the UG students of all Departments to choose the allied subjects from other Departments. For example B.A. (Economics) students choose the subject “Advertisement and Marketing” as an allied subject from commerce

---

Department. Thus the science students are also given the opportunity to choose their allied subjects from the related science Departments. P.G. students do not have the chance to study inter disciplinary subjects. However they are given the chance to learn the application of computer relevant to their subjects.

The following Carrier Oriented Courses are conducted. Certificate Courses were conducted for I year U.G. Students. The students who have passed the Certificate Courses can join the Diploma Course “Soil Science and Agricultural Chemistry” conducted by Chemistry Department and “Medicinal Plants and Sericulture” conducted by the Advanced Zoology and Bio-Technology Department.

## **5. Examination reforms implemented**

The university changes the question pattern whenever the need arises. Now we have the following question pattern.

### For U.G.

Part-A	10 Questions X 1	=	10 Marks
Part-B	5 Questions X 5 (Internal choice)	=	25 Marks
Part-C	5 Questions X 8 (Internal choice)	=	40 Marks
Total			----- 75 Marks -----

Duration of time – 3 Hours

### For P.G.

Part-A	10 Questions X 1	=	10 Marks
Part-B	5 Questions X 5 (Internal choice)	=	25 Marks
Part-C	5 Questions X 8 (Internal choice)	=	40 Marks

---

Total

-----  
75 Marks  
-----

Duration of time – 3 Hours

On the basis of the question pattern of the University, the College conducts periodical tests for the students.

For UG courses, the part A questions are objective type. So all Departments prepare question banks for all subjects and give practice to answer the objective type of questions.

Dr.A.Soundrarajan, Associate Professor of Commerce is the co-ordinator to conduct the Internal Assessment Test. Three Internal Assessment Tests will be conducted for one subject per semester. Time table of the test are well planned in advance and conducted in a systematic manner.

#### **6. Candidates qualified NET/SLET/GATE etc.**

- Nil –

#### **7. Initiative towards Faculty Development Programme**

The teachers are given the opportunity to do Ph.D. through Faculty Development Programme (FDP). Teachers are given encouragement and motivation to do research in their respective disciplines.

Before the selection of the teachers for FDP, the subject experts both from inside and outside of the College will be done objectively. The teachers eligible for getting FDP grant were advised to apply for FDP this year.

This year the following teachers are doing Ph.D. under FDP.

1. Mr.A.R.P.T.Muthukumar, Assistant Professor in Economics
2. Mr.S.Anbarasan, Assistant Professor of Chemistry

**Participated as Resource Person**

- 
- An invited talk on “Characterization of water - soluble Nanoparticles” was presented by Dr. P. Selvarajan, Dept. of Physics in the National Conference organized at PSN College of Engineering and Technology on 27<sup>th</sup> to 29<sup>th</sup> August 2009.

## 9. Research projects

The management motivates the teachers to apply for minor and major grants from various funding agencies like UGC, DST and TamilNadu State Council for Science and Technology. The expenditure for applying the projects is completely borne by the management. The Management has contributed Rs. 40,000/- during the year 2009-2010 for research activities. The Management provides all necessary infrastructure facilities for setting up the research centers proposed by various teachers. The management has provided a separate well equipped air-conditioned room for TN PROBE project taken by the former Principal Dr. P. Selvaraj. Originally, the project was to be over on 30<sup>th</sup> June 2009 and the Department of Science and Technology is gracious to extend the project up to 31<sup>st</sup> December 2009.

***TN-PROBE, DST –Project – Meteorological Education for youth in schools***

The College is doing a Project “Participation of youth in Real time/field Observations to Benefit Education” (PROBE) sponsored by the Department of Science and Technology, Government of India (DST-GOI). Dr.P.Selvaraj, Principal of the college is the Principal Investigator of the project.

The DST, GOI has sanctioned Rs. 28.35 lakhs for the project. Fifteen schools spatially distributed in the Coastal area in 280 KM stretch of Kanniyakumari, Tirunelveli, and Thoothukudi districts of TamilNadu have been selected for this project. The management has provided a separate well equipped air-conditioned room for TN PROBE project taken by our Principal Dr. P. Selvaraj. Originally, the project was to be over on 31<sup>st</sup> December 2008 and the Department of Science and Technology is gracious to extend the project up to 30<sup>th</sup> June 2009.

***Blood Donation***

---

***“Saving a life” is a divine service. The goal of the club is to induce humanity and life saving service in the minds of our younger generation.***

The club has a teacher as convener, two teaching faculty and all the blood donors as members. Every year this club conducts blood identification camp for the first year students. The blood donors club of the college is operating on “emergency response” basis. Whenever the medical practioners facing crisis like treating patients met with an accident, quick loss of blood, premature delivery, they send the patient’s relatives directly to the college and the blood donors club takes necessary steps immediately. At the instance surgeons calling the Principal over phone, the Principal arranges for immediate donors. The blood donors are awarded certificates and memento by our Principal in recognition of their service.

The College Blood Donors Club conducted Blood Identification camp and all I year UG/PG students have their blood identified. During the year 2009-2010 119 students of the college donated blood at various places to the needy people. The following students have donated blood and saved lives of the people.

### ***Community Radio Station***

The basic objective of the Sivanthi Community Radio is to serve the cause of the community in and around Tiruchendur by involving members of the community within the zone of coverage of broadcasting upto 20 kilometers. To govern the broadcasting process Sivanthi Community Radio has its own programme advisory committee consisting of students, teaching faculty and community representatives. It also has a co-ordinating committee with seven faculty members from various colleges who act as convener of community radio club in their respective colleges.

Everyday, the Sivanthi Community Radio station is broadcasting programmes in the morning 6 am to 9 am and in the evening 5 pm to 8 pm. The programmes are most relevant to the community and it emphasizes on community development, health education, environment, social welfare, culture and agriculture. The programmes reflect the special interest and needs of the local community. More than 50% of the programmes are generated with the participation of the local community and almost all the programmes are in Tamil.

Sivanthi Community Radio plays a vital role in the social transformation through rural development, entrepreneurship promotion, better elementary education, creating awareness about health and hygienic practices among rural masses.

Government of India, Department of Science and Technology, Ministry of Science and Technology (RV PS P) Division sanctioned Rs. 7,78,000/- to Sivanthi Community Radio for the development and production of Radio Programme of

## **21. Improvements in the library services**

The Central library has been automated. The stock, issue and return of the books are done with the help of library software.

Additional funds are given to strengthen the library every year by the college management. Latest books with bar coded facility in all subjects are added.

The library is kept open for longer hours than before.

8.30 a.m. to 6.30 p.m. on all working days

10.00 a.m. to 1.00 p.m. on Saturdays.

9.30 a.m to 5.30 p.m on examination days and during summer vacation

Internet facilities are available in all the Departments and the UGC – Net Work Resource Centre is functioning in the central Library.

The library is open to all members of the College. The library is kept open from 9.00 a.m. to 4.30 p.m. on all working days and from 9.45 a.m. to 4.30 p.m. during holidays. The library is kept closed on Sundays and other notified holidays.

Every student is supplied with three borrower's tickets for taking books from the Library. Only one book can be borrowed against one ticket. While borrowing a book the student should hand over the ticket to the librarian and should get back when returning the book. Books will be issued on presentation of the identity card. Students should take care of the tickets issued to them. The librarian has given orientation to all the first year Degree students every year on how to use the Card Catalogue, Encyclopedias, and Dictionaries etc. A suggestion box is maintained since 1976. News paper clippings / cuttings on Higher education, Foreign Scholarships, Appointments etc. are put up in Library Notice Board for student's reference. Also we maintain Newspaper Clippings File in the Library for ready reference. We display the book jackets that are recently purchased and included in the Library collection to

---

motivate the students to see the new arrivals etc. For efficient administration of the Library affairs, the Library Committee with some senior staff members and student representatives is formed. It meets once in a semester and puts forward solid suggestions for efficient performance. Students' volunteers are employed on Part-time basis to assist the Librarian in ever increasing activities of the Library. The College pays a decent honorarium to them.

Open Access system is followed in the College library for all students.

Students shall show their library borrower's tickets and identity card to the Library Authorities, before entering the Stack Room.

### **23. Courses in which student assessment of teachers is introduced and the action taken on Student's feedback**

The student Advisory System is going on very successfully in the College. One staff member will be the student advisor for a class for three years continuously for all U.G. classes. Invariably he takes classes for all the three years to the same batch of students. At the end of III year the class advisor and Head of the Department conduct students' assessment to inform about the teachers and the Departmental activities such as library facilities, remedial courses and other facilities available in the College.

During the Farewell function at the end of the VI Semester, the students are given sufficient opportunities to express their views and opinions freely about the College, Department, teaching learning and other related matters. The Principal makes it a practice to participate in all the Farewell functions and on the basis of students feed back necessary action is taken. The questionnaire is based on the NAAC suggestions with specific modification.

### **24. Unit cost of education**

The unit cost of education is computed as the ratio of total amount of expenses spent by the College to the total number of students. The total amount of expenses including salary to teaching and non-teaching staff, all the types of grants including Management grant and scholarships to the students etc. is given below.

$$\begin{aligned} \text{Hence the ratio} &= \frac{\text{Total amount of expenses}}{\text{Total Number of students}} \\ &= \frac{\text{Rs. 6,23,58,786}}{1289} \\ &= \text{Rs. 48,377.64/-} = \text{Rs. 48, 378/-} \end{aligned}$$

---

The ratio is calculated as Rs. 48,378/-. This implies that for every student Rs. 48,378/- (Rs. Fourty Eight Thousand Three Hundred and Seventy Eight only) was spent for his education.

## **25. Computerization of administration and the process of admissions and examination results, issue of certificates**

The College office is partially computerized and administration work is carried out effectively and easily. The students' admission process is fully computerized. Using computers the selection of students for admission is made on the basis of the admission policy of the government. The examination results are fed into the computers and the analysis of results and other details are stored in the computers. The Conduct Certificate and Transfer Certificate are issued manually. Printed Transcript Certificate is issued to the students from the academic year 2009-2010.

### 36. Activities of the Guidance and Counselling Unit

For each class, a teacher is nominated as an ‘Advisor’ and he will act as ‘mentor’ to the students of that class. He/She is in-charge for three years of the U.G. programme. He/She maintains a cumulative record which carries all information about his academic and co-curricular performance of all the six semesters including his bio-data and family background.

Advisor counsels the weak students and guides them to meet the teachers concerned, to discuss about the subject matter. The class test question papers are discussed in the class, and the questions which are not answered by the students, are explained. The advisors have personal and constant touch with students and offer guidance and

---

counselling to them, both in the academic and personal matters. He plays the role of parent, teacher and counselor. He meets the students and their parents periodically. The advisors also assist the students to overcome their personal problems, if any. Students are encouraged to meet the teachers to discuss their academic matters even after class hours. The details of the academic performances in the university examinations are sent to the parents with the remarks made by the advisors and head of the Departments.

The parents of the slow learners are called on and students are given counselling along with their parents. He continues their touch with the students even after the completion of their degrees, guiding for their higher education and/or for career opportunities.

### **37. Placement services provided to students**

The placement centre of the college takes much effort to arrange for job for more number of students. To create awareness among the students to enter into new courses and get placements, Career Guidance and Placement Cell is functioning.

The cell has a director, two teaching staff and five students as members.

The club conducts guest lecture on topics such as job opportunities, commencing business, internet, resume writing, competitive examinations, spoken English and interview techniques. The club takes initiatives for campus interview.

Detail of Campus interviews conducted by the Career Guidance Cell.
